QUIGLEY MOTOR COMPANY

"Your Drive Shaft Source"

Our modern state of the art equipment and highly trained personnel can supply dependable proven service for most cars, light through heavy duty trucks, up to and including the 1810 Spicer series. We offer service on a maximum length of 72" for a 1-piece drive shaft and 150" for a 2-piece shaft. Quigley, the world leader in 4x4 Van Manufacturing, assures your drive shafts meet the Quigley Quality standard to which our customers are accustomed.

For the Jeep enthusiasts, Quigley offers three different lengths for the 1310 Slip Yoke Eliminator (SYE) shafts, 16.5", 18.0" and 20.0" for TJ and YJ models. All shafts use 2.0" diameter tubing, CV joints and we offer them at the same low price. We also have a front and rear drive shaft upgrade kit for the JK models.
